

## Standard Awning and Aluminum - Railing Worksheet

Choose your layout:

Top View

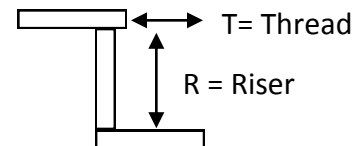

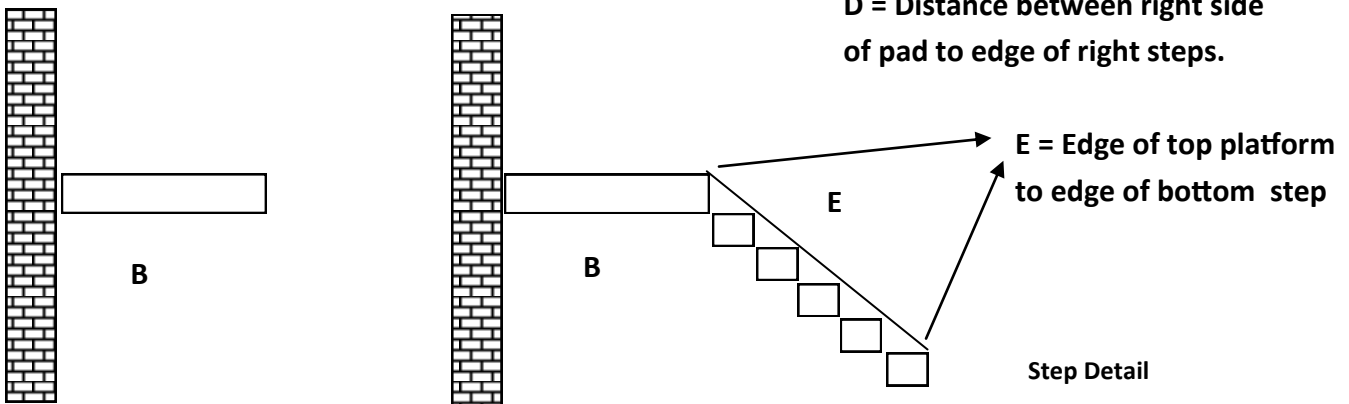

A = Width of Pad

B = Depth of Pad

C = Distance between left side of pad to edge of left steps.

D = Distance between right side of pad to edge of right steps.

Side View

Check all that apply:      Style 1: \_\_\_\_\_ Style 2: \_\_\_\_\_ Style 3: \_\_\_\_\_

Pad only: \_\_\_\_\_ Steps Only: \_\_\_\_\_ Pad and Steps: \_\_\_\_\_

Attached to house:  Y  N Freestanding:  Y  N Number of Rails:  1  2

Measurements (Inches): A = \_\_\_\_\_ B = \_\_\_\_\_ C = \_\_\_\_\_ D = \_\_\_\_\_ E = \_\_\_\_\_

T = \_\_\_\_\_ inches R = \_\_\_\_\_ inches Number of steps \_\_\_\_\_

Are the risers and threads for each step the same size:  Y  N

**Note: If ordering railings for both sides of porch/steps, make sure they are the same size. The styles above are the most common layouts. Please feel free to call/email/fax for comments/suggestions.**
